WOODRUFF'S CASH NURSERY
Route One Eugene, Oregon

Visit Our Rose Gardens

During June and the early part of July our rose nursery consisting of 5000 plants will be a wonderful mass of blooms in every conceivable shade and tone of color. We extend to you a hearty invitation to come and visit us at this time. You will see many of the newer creations as well as the old favorite roses.

WESTERN OREGON GROWN ROSE BUSHES are superior to the stocks produced in any other section of the United States. We have a long growing season without excessive heat where the growth of the plants is well maintained through the summer and into the early fall months. Light frosts in October ripen up the growth and put the plants in fine shape for digging and marketing. The exceptional development of fibrous roots on our plants is an added indication that both the soil and climatic conditions are very favorable to their production.

ROSE BUSHES ARE SOLD BY GRADE in much the same way as other farm crops such as potatoes, butter, eggs, and fruit. **THE OREGON STANDARD** for a No. 1 bush requires that it be 16 or more inches in length with three or more strong canes. **OREGON MEDIUM GRADE** shall have two or more canes of 14 inches and up in length. **OREGON NO. 2 GRADE** shall have two or more canes of 10 inches and up in length.

WE MEET ALL COMPETITION in the sale of plants, grade for grade and where the quality is equal. Some of our local retail merchants who dash into the nursery business for a few days each year with a sale of rose bushes very carefully refrain from mentioning that their plants are grown down in California. **WHEN YOU BUY HOME GROWN NURSERY STOCK, YOU ARE HELPING LANE COUNTY PAY-ROLLS.**

With the exception of a few varieties of recent introduction, you will note that most of our rose bushes are priced at 25c and 35c each. The 35c plants sell at three for \$1 or \$3.50 the dozen. No reduction for quantity made on the 25c plants.

WE GROW OUR ROSE BUSHES, FLOWERING SHRUBS, FRUIT TREES, WALNUT AND FILBERT TREES, ORNAMENTAL SHADE TREES, GRAPE VINES, GOOSEBERRY AND CURRANTS at our main growing grounds and nursery on the Pacific Highway North, 8 ½ miles from the Courthouse. We are just a short distance from the Lone Pine Schoolhouse, being on the same side of the road and about half a mile North. Home grounds and nursery are two miles north of Eugene on the Pacific Highway.

VISITORS ALWAYS WELCOME

BUSH ROSES

ANGELE PERNET. Reddish orange shaded chrome-yellow. Fragrant, Profuse bloomer. 35c ea.

BETTY UPRICHARD. Pointed buds salmon pink, reverse carmine with coppery sheen. Gold Medal N.R.S. 1921. 25c ea.

VESUVIUS. Tapering buds opening to poppy-like flowers of glowing fiery crimson. 25c ea.

CLIMBING ROSES

Few plants will provide as much beauty and color as the climbers do. During the month of June and intermittently throughout the summer and fall these fine roses are a show by themselves. We offer a number of the more recent introductions as well as the old time favorites.

ALL CLIMBING ROSES PRICED AT 50c EACH

BELLE OF PORTUGAL. Vigorous grower, beautiful Salmon-pink buds often 3 inches long. It usually does not bloom until the second or third year after planting but it is well worth the wait.

BLACK BOY. One of the Australian offerings which is one of the finest red climbers. The blooms are large, double, fragrant, deep velvety crimson.

CECILE BRUNNER. Tiny, well shaped, pink buds and flowers. Vigorous with dense handsome foliage.

EMILY GRAY. Semi-double, golden-buff flowers. Glossy foliage.

GOLDEN EMBLEM. Same beautiful yellow flowers as on the bush variety. Strong grower.

HADLEY. Vigorous. Rich velvety crimson. Fragrant. New.

HOOSIER BEAUTY. Long pointed, scarlet-crimson buds. Fragrant.

WHITE COCHET. Ivory white, tips of petals tinged pink.
